

Dare County Schools, NC - Home Language Survey

Directions:

1. Parents/guardians of all new students (including preschool and Kindergarten) complete this form at the time of enrollment and record all information requested. Provide interpreting services whenever necessary.
2. Ensure that all questions on the form are completed. Determine which ESL Program staff will review the responses, interview the parent as necessary, and/or observe the student to determine the home language. If the parent lists more than one language other than English, the reviewer must determine which one is the child's home language for data collection purposes and document it on this form.
3. If it is determined that a student's home language is other than English, administer the English language proficiency test. Follow your protocol to collect and document the student's scores.
4. Place the original form in the student's cumulative folder.

Student Information/ Información del Estudiante
