

Reciprocal Teaching Process

Predict NOTE: You may do it at the beginning for today's reading OR at the end for tomorrow's reading.	The leader of this section predicts with evidence: My prediction is... My evidence is... Other students agree or disagree and give their evidence.
Read	One student reads the section out loud OR students take turns reading out loud OR students read silently.
Question	The leader of this section asks questions: My "thin" question is... My "thick" question is... Other students answer questions and may ask questions of their own.
Clarify	The leader of this section asks for or gives clarification for words or ideas: I need to have... clarified. Do you need anything clarified?
Visualize	Students may: Draw a sketch of what they see in their minds as they read OR talk about the picture they have painted in their minds.
Summarize	The leader of this section summarizes: Here is my summary of the most important information... Other students may add to that summary, or may share their own.
Predict	The leader of this section predicts with evidence: My prediction is... My evidence is... Other students agree or disagree and give their evidence.
